The WHALE Study Family Newsletter

JANUARY 2024

From the entire WHALE team, we would like to express our heartfelt **gratitude** for your participation in WHALE! Thank you for helping us advance science!

LOCAL STEM EDUCATION OPPORTUNITY FOR YOUR CHILDREN

ENGINEERING FOR MOMS & DAUGHTERS

brought to you by InventHERS Institute Join us as we develop solutions to real-world problems. We are looking for elementary students (grades 3 - 5) and their caregiver to engage in engineering projects related to improving our community.

WHALE FACTS

🚽 💵 😫 🥮

The research team at Wellness Health And Life Experiences Study (<u>WHALE</u>) is wrapping up data collection by Summer 2024. Our study includes using Magnetic Resonance Imaging (MRI) to investigate how different early life experiences impact brain development! **We'd love to have you participate before the study ends** (whalestudy@unc.edu)!

WHAT HAVE WE LEARNED SO FAR?

With your help, we've mapped what parts of their brains little kids use for **emotion regulation** (getting calmed down when upset), and **inhibitory control** (stopping themselves from doing things they're not supposed to). In addition, we've examined how families are and aren't predictable & if that matters to kids!

NEUROSCIENCE IS IMPORTANT FOR THE SOCIETY <u>BECAUSE</u>...

Learning about neuroscience helps us understand when and why problems arise. Our nervous system works to produce thoughts, emotions, and behavior, but also controls important body functions, like breathing.

Please reach out if you have any questions, comments, or concerns regarding The WHALE Study. Staff can be reached by call, text, or email: whalestudy@unc.edu | 919-914-0588
